

# FLP<sub>®</sub> PRESS RELEASE

## NETE2 ASIA PTE LTD IS DEPLOYING FLP® ENTERPRISE MANAGEMENT SYSTEM FOR THEIR FULL LINE OF BUSINESS FROM SALES, CUSTOMER SERVICES AND WAREHOUSING

[2006-02-16] FLP Development Team

NETe2 Asia Pte Ltd is a Singapore based group of companies and is the trusted global provider of telecommunication products and services.

## HOW THEY CHOSE FLP<sup>®</sup>

Their CEO flew to Hong Kong and spent one and half day evaluation of FLP<sup>®</sup> Enterprise Management System to have a high level touch of the management features and system capabilities of FLP<sup>®</sup>. After a month, their CIO visited Hong Kong, having an in-depth meeting with the FLP<sup>®</sup> developer and made an exhaustive evaluation of the technical and security aspects of FLP<sup>®</sup>. FLP<sup>®</sup> passed their evaluations and won the contract

Not Just Technology. Know How.

## WHY THEY CHOSE FLP®

NETe2Asia chose  $FLP^{\text{(B)}}$  for reason that  $FLP^{\text{(B)}}$  is truly customized to its business model.  $FLP^{\text{(B)}}$  is not merely software.  $FLP^{\text{(B)}}$  helps in formulating controls and procedure to the company operations.

## FLP® IS IBM SERVER PROVEN AND IBM SOLUTION CONNECTION

FLP<sup>®</sup> is one of a few Hong Kong developed business system solutions, which has qualified as IBM Server Proven and IBM Solution Connection.

#### WARRANTY RECORD

NETe2 Asia Pte Ltd is selling different lines of IT Equipment and Video Conference Equipment. FLP<sup>®</sup> provides an on-line system to track warranty information. For example, contact person, telephone, service location are immediately accessible in the system. Renewal of warranty can be done efficiently.

#### SERIAL NUMBER TRACKING

One of the FLP<sup>®</sup> functionalities is to keep track of the serial numbers. The search engine allows the users to extract information of a serial number easily. This means high customer service standard is always maintained.

#### CUSTOMER MANAGEMENT

The built-in FLP<sup>®</sup> Customer Manager is so intuitive and easy-to-use that sales team can easily generate sales leads and sales managers can track the performance of each sales executive.

## FLP® USES LOTUS PLATFORM AND EMAIL

FLP<sup>®</sup> is developed using Lotus Domino and eMail is naturally one of the complete All-in-one business system without the need of integrating third party email system.

## FLP<sup>®</sup> MEANS SUPPORT

What differentiates FLP<sup>®</sup> from other software is FLP<sup>®</sup>. FLP<sup>®</sup> talks about customer satisfaction and on-going system enhancement. You will never be alone after buying FLP<sup>®</sup>. FLP<sup>®</sup> cares for you.

## FLP® CUSTOMIZED TO THE BUSINES AND ALL-IN-ONE

The FLP<sup>®</sup> system is a combination of our professional experience and business knowledge and technical know-how. More importantly, we have rich experience in re-engineering and excellent communication and implementation skill.
