

EXECUTIVE SUMMARY  
FLP<sup>®</sup> ENTERPRISE MANAGEMENT SYSTEM

## FLP<sup>®</sup> ENTERPRISE MANAGEMENT SYSTEM (FLP<sup>®</sup> EMS)

FLP<sup>®</sup> EMS is an enterprise resources planning (ERP) solution. FLP<sup>®</sup> EMS offerings can help you unify and streamline every process of your enterprise functions, and manage the costs associated with doing business. FLP<sup>®</sup> has strategic relationship with the industry leading IT solution provider, IBM. FLP<sup>®</sup> EMS provides project management techniques and systems integration expertise to put your enterprise management plans into action, from initial enterprise resources planning strategy, to design, process and final ERP implementation.

### Responsive, Flexible and Realtime

FLP<sup>®</sup> EMS helps an enterprise to be eminently responsive, flexible, focused and ready to react in realtime to the changing marketplace. FLP<sup>®</sup> EMS is the finest mix of IT infrastructure and business intelligence that encourages efficient collaboration and assures optimal performance by all staff at every work process in each division of your enterprise without physical boundary or time constraint.

### FLP<sup>®</sup> EMS and Functional Managers

An organization is constituted by a number of managers, each having subordinates and taking charge of certain business functions. The Functional Managers interact and collaborate with each other. One piece of work of a functional manager impacts on other functional managers. FLP<sup>®</sup> EMS essentially provides each functional manager with a set of management tools, business intelligence and security control to help you efficiently and comfortably manage your enterprise.

### FLP Accounting Manager and FLP EMS

The efficiency of FLP Accounting Manager is manifested when full series of FLP EMS are implemented. One click on a button automates the accounting double entries for EACH source document and you can verify the double entries before pressing the 'save' button. You can also 'view' the accounting double entries for each source document. When a sales invoice or cheque is issued, double entries are done without typing the same data twice for purpose of accounting entries. Working closely with the FLP Accounting Manager is the superb FLP Accounts Receivable Manager who is capable of monitoring outstanding debts the same second when a sales invoice is issued and a receipt is recorded.

### Logistics and Customer Services

FLP EMS well controls every inventory-in and inventory-out. With the powerful instant 'chain-of-events' enquiries, you can completely walk through the events pertaining to an item, purchase, quotation, confirmed quotation, sales contract, sales invoices, delivery, repairs, service calls, warranty and maintenance renewal. Stock balance is always up-to-date as FLP does not require posting or module switching. Immediate response to customer enquiry and high quality customer services are guaranteed.

#### Personnel Management and FLP Planner

FLP Personnel Manager lets you easily manage the leave request and daily attendance. FLP Diary Manager is your personal assistant reminding you of important events and jotting down quick notes. FLP Diary Manager is in essence your personalized FLP planner.

#### FLP Payment Schemes

FLP payment schemes allow organizations to spread payments and conserve their cash flows. With our easy payment options, you can put together all the FLP Functional Managers and get them up and running immediately in your enterprise.

#### Your Benefits

With FLP EMS, you have total control of your enterprise, improve the cash flow, increase the market capture and become less vulnerable to staff turnover.
