FLP® ENTERPRISE MANAGEMENT SYSTEM (FLP® EMS)

More than ERP

FLP® Enterprise Management System is one of the FLP® software products providing the complete solution to support essential business requirements, enabling you to meet strategic goals, maintain operational control, acquire business analysis, improve administrative efficiency and uplift profitability. FLP® EMS stimulates business processes beyond the enterprise by interacting with customers, partners, and suppliers. With FLP® Enterprise Management System, you'll have better forecasting and planning, and more accurate insight into what's going on in the enterprise.

COMPETITIVE EDGES TO YOUR COMPANY

Complete Coverage of Business Processes

FLP® EMS provides you with fully integrated processes for self manageable definitions, analytical reviews, streamlining operations and human capital management.

Applied Easily to Your Business

The flexible FLP® EMS platform can be adapted easily to your business at operational and strategic levels.

Enhanced Productivity

The As-A-Whole vision of FLP® EMS speeds up business processes to respond in real time.

Business Intelligence

FLP® EMS is an optimized mix of technological application and business capabilities.

Share Work and Information

FLP® EMS is a true collaboration and messaging platform with proven secured access right controls.

Align Company Goal

FLP® EMS closes the communication gap by aligning operations with business strategy.

Financial Control

Full range of on-line information supports efficient cash flow controls, accounts receivable and purchase plans.

Global Access

Business transactions can be conducted without physical boundaries and reported in multiple currencies.
