

SYSTEM OVERVIEW

FLP[®] FINANCE & LOGISTICS PROFESSION

FLP® FINANCE & LOGISTICS PROFESSION

YOUR BUSINESS MODEL

Today's competitive market is more volatile than ever. To run the business effectively and to achieve constant growth of profit, every corporation is looking for integration of business systems that help to control business issues to react to the short-term world. Rapid application development is being given more emphasis. Corporations are looking for a product that can be acquired and installed quickly in 6 months time. Moreover, corporations expect that the product is cost effective and the IT infrastructure is configured to allow high flexibility, 24 hours access and ease-of-use so that the management can concentrate on their core business.

CUSTOMIZABLE, QUICKLY, COSTEFFECTIVELY

Finance and Logistics Profession solution from UAT is designed to help you customize and roll out a business application flexibly and quickly. UAT can help you assess your current processes, evaluate your needs and recommend the right application and services to deploy a complete solution for your company. FLP® solutions provide you a business model the way marketing is done profitably. Responding to customer-driven marketing is the key to capitalize the sales lead and surely will be your competitive advantage. UAT can help automate many of your routine functions, customer contacts, call center and promotional mails. All the useful customer data are visually in front of you, you can actively lead your customers and make the right offers at the right time.

TODAY'S BUSINESS SUCCESS

FLP® Solutions provide solutions to our customers to realize the next-generation technology into today's business success, from hardware selection, software installation, application customization to business re-engineering. FLP® Solutions help corporation stay competitive and outperform than their rivals.

CUSTOMER SIZE

FLP® Solutions are scalable and technology solutions for use by small to medium size companies of 10 to 200 employees. There are a lot of small and medium businesses (SMBs), many more than enterprise-size companies. These SMBs are looking for quality business applications solutions in the IT market, and their demands should not be ignored. FLP® Solutions deliver the technology solutions to help transform a traditional business into a proactive business model quickly and inexpensively. FLP® Solutions give you real-time control of entire financial and logistics functions. The obvious benefit is to help you eliminate duplication of effort and to avoid losing control, giving you more time to streamline the production cycle, manage customers efficiently, move products to market swiftly, organize document flow better and instantly, control the accounts receivable and access to financial information visually.

IBM PREMIUM BUSINESS PARTNER

FLP® recommends industry leading IBM hardware and middleware. FLP® is also premier business partner with Cisco. Without doubt, FLP® possess the most advanced skill in connecting your companies and branches worldwide.

SUCCESS CASES

"The busy breakfast meetings, banker lunches and meetings in a day, rarely do I really have time to sit down in my office to track my staff performance or read the financial reports. Nonetheless, I feel comfortable getting whole control of my company, sales contracts, sales team performance, customer outstanding balances and incoming shipment time table. By a few clicks on the notebook home, 20 minutes every night, I've digested my company", said the CEO of Shanell Limited, a market leading company engaged in importing and distributing plastic materials.

FLP[®] BUSINESS MODEL

A FOUNDATION FOR YOU TO BUILD YOUR OWN BUSINESS MODEL

No two companies are the same even conducting the same business in the same industry. Why should you choose a standard software package.

No other software solutions provide more feature and functions than FLP[®] does costeffectively. No other software solutions provide such an all-in-one interface integrating with your company wide company business processes. FLP[®] provides a market leading collaboration platform for all your company staff to work on anytime, anywhere with unlimited scalability without physical country border barriers over the Internet.

What's more, FLP[®] shares our experience with you to customize the software applications to suit your business and prepare for the future.

FLP[®] is empowered by IBM[®] Lotus[®] Domino[®]/Notes[®] technology.
