

FLP[®]

BUSINESS MODEL

FLP[®]

POINT OF SALES MANAGEMENT

FEATURES AND FUNCTIONALITIES

Successful Business Selects **FLP[®]**

FLP[®]

POINT OF SALES MANAGEMENT FEATURES & FUNCTIONALITIES

SOLUTION TO RAISE OVERALL ORGANISATION PRODUCTIVITY

FLP[®] Point of Sales Manager utilises the latest information technologies to provide retailers a powerful computer system to streamline retail business processes both in the outlet shops and back office, providing the most up-to-date business information for escalating sales performance, low operation cost, tight inventory control, efficient allocation of human resources and quick business decision.

UPLIFT MANAGEMENT VISIBILITY

Issued sales invoices, receipts, delivery notes, and so on are all available immediately online for reference by authorized staff throughout the entire enterprise. As such, transparency in business performance and management is greatly enhanced.

ACCOUNTING ENTRIES IMMEDIATELY DONE

FLP[®] Point of Sales Manager requires no additional effort to do the double entries which are automatically completed for you.

SHORT LEARNING CURVE

Design of FLP[®] Point of Sales Manager is based on human ways of performing tasks and the learning curve is therefore short, help request from supporting staff is low and return on investment is high.

AS-A-WHOLE APPROACH

FLP® Point of Sales Manager does not adopt traditional 'module' approach. All the series of FLP® solutions (e.g. FLP® Executive Manager, FLP® Human Resources Manager, FLP® Accounting Manager, FLP® Customer Manager, etc.) are based on real life situation that each functional manager multi-dimensionally interacts with each other and the design of FLP® solutions is founded on this solid and modern approach.

DESIGNED BY ACCOUNTING AND MANAGEMENT PROFESSIONALS

The whole series of FLP® solutions is designed by finance and management professionals of worldwide experience and we understand more of your business needs, not just in computer terms.

TYPE ONCE; USE MANY; MANY CAN USE; ANYTIME; ANYWHERE

Data is only entered once and when a change is made, even if it is just a change in customer address, the information is updated throughout the whole system.

STREAMLINE STOCKING AND REORDERING PROCESS

FLP® Point of Sales Manager helps to streamline the stocking and reordering process. Costly overstocking mistakes can be avoided by eliminating slow-moving items and increasing the turnover rate of stock.

FEATURES

- ❖ Receipt and invoice issuance
- ❖ Staff identification by finger print and password
- ❖ Outlet shop replenishment management
- ❖ Online product information
- ❖ Dynamic allocation of staff and staff attendance
- ❖ Profit analysis and Transaction history
- ❖ Customer database
- ❖ Mail merge, Email and calendaring
- ❖ Facilitate promotion campaign
- ❖ Warehouse management
- ❖ Supply chain and purchase management
- ❖ IBM express solution for ease-to-use, ease-to-acquire
- ❖ Collaboration platform to foster teamwork, share work and information
- ❖ Global access to extend market coverage
- ❖ Security - user only sees role-based information
- ❖ Support multiple users, multiple languages, multiple Currency
- ❖ Built-in IBM Beacon Award winning report writer
- ❖ Seamlessly integrated with all FLP solutions

MAIL MERGE

Mail merge is a very useful tool when you have a standard letter format and selectively circulate the letters to your customers for product promotion and seasonal greetings etc.

FACILITATE PROMOTION CAMPAIGN

Based on your selection criteria, you can send mass mail, for example, for promotion campaign. Mail merge and PDF are the standard features of most of the FLP® solutions.

OUTLET SHOP REPLENISHMENT MANAGEMENT

Business information, such as stock level, fast moving items and sales trends etc., are all available online in the back office, hence outlet shop replenishment plan, delivery schedule can easily and accurately be devised to ensure uninterrupted supply of goods and avoid costly overstocking.

IBM EXPRESS SOLUTION FOR EASE-TO-USE, EASE-TO-ACQUIRE

FLP® Point of Sales Manager distinguished itself in the software market as the system is using the latest world-class IBM® Lotus® Domino® technology. To open a shop outlet cannot be easier when you are using the FLP® Point of Sales Manager. No printing of extra stationery is required. No new system training is necessary. Shop assistants from other shops can just walk in and commence serving customers without demanding new training.

COLLABORATION PLATFORM TO FOSTER TEAMWORK, SHARE WORK AND INFORMATION

FLP® Point of Sales Manager is founded on IBM® Lotus® Domino®, true collaboration and groupware platform. For example, once a sales contract has been concluded, there is no need circulating papers and the accounting and logistics department can follow up at once. Error and omission is reduced to minimum and the efficiency is increased.

GLOBAL ACCESS TO EXTEND MARKET COVERAGE

FLP® Point of Sales Manager can be globally accessible, together with its high degree of security, control and user-friendliness, there is no restriction as to the whereabouts of the outlet shops, thus facilitating cross-border business and expansion of market coverage. Retailers can manage the whole retailing enterprise with outlet shops situated anywhere in the world from a single office.

BUILT-IN IBM BEACON AWARD WINNING REPORT WRITER

Built-in with the report writer 'IntelliPRINTPLUS', an 'IBM Beacon Award' winner, to let user define reports for easy analysis and better business insight.

AUDIT TRAIL

Audit trail function allows authorized user to identify who made each change by date, time, and type of change in an easy understandable way

COMPREHENSIVE SECURITY

Access control maintenance to allow user only sees relevant and role-based information. Access control can be set up to decide which fields, screens, databases and which records users can access and whether those users can view only or modify information held on the system.

Audit trail function allows authorized user to identify who made each change by date, time, and type of change in an easy understandable way.

SEAMLESSLY INTEGRATED WITH OTHER FLP® SOLUTIONS

FLP® Human Resources Manager can be integrated with other FLP® solutions to provide a total solution for streamlining business processes and raise overall organization productivity, for example :

- ❖ FLP® Accounting Manager
- ❖ FLP® Document Manager
- ❖ FLP® Logistics Manager
- ❖ FLP® Executive Manager
- ❖ FLP® Dairy Manager

The image shows a promotional graphic for the SHANELL FLP® ENTERPRISE MANAGEMENT SYSTEM. On the left, the SHANELL logo is displayed above a list of 14 software modules, each preceded by a small square icon. On the right, there is a stylized graphic of a hand holding a glowing, multi-colored cube, with the text 'FLP® ENTERPRISE MANAGEMENT SYSTEM' overlaid. At the bottom, there is a copyright notice and the UAT logo.

FLP® BUSINESS MODEL:

A FOUNDATION FOR YOU TO BUILD YOUR OWN BUSINESS MODEL

No two companies are the same even conducting the same business in the same industry. Why should you choose a standard software package.

No other software solutions provide more feature and functions than FLP® does costeffectively. No other software solutions provide such an all-in-one interface integrating with your company wide company business processes. FLP® provides a market leading collaboration platform for all your company staff to work on anytime, anywhere with unlimited scalability without physical country border barriers over the Internet.

What's more, FLP® shares our experience with you to customize the software applications to suit your business and prepare for the future.

FLP® is empowered by IBM® Lotus® Domino®/Notes® technology.
