

SYSTEM OVERVIEW
FLP[®] PROJECT MANAGEMENT

MANAGE PROJECT COLLABORATIVELY

FLP® Project Manager offers features that enhance the ability of executives, managers and users to manage projects effectively including : coordination of project team members who may be widely dispersed globally, tracking of project status at any time from anywhere; project costing; streamling communication. All project information, for example, project schedule, meeting minutes and variation orders etc., are stored centrally in a single location for easy retrieval and updates by authorized participants, updates and feedbacks are instant throughout the system. There is no need for manual refreshing or reloading of data, hence less prone to human errors and overall project team productivity is raised.

CUSTOMIZED TO ADDRESS YOUR SPECIFIC NEEDS

No two companies are the same, and your unique business practice is surely the distinct competitive advantage over your competitors. FLP® Project Manager is ready for cost-effective customization to reflect company culture and address specific industry needs. It can be readily integrated with other FLP® solutions to extend its capabilities which can include human resources management, sales management, billing, customer relationship management and customer support management etc. in order to form a real-time enterprise to raise the overall organization productivity.

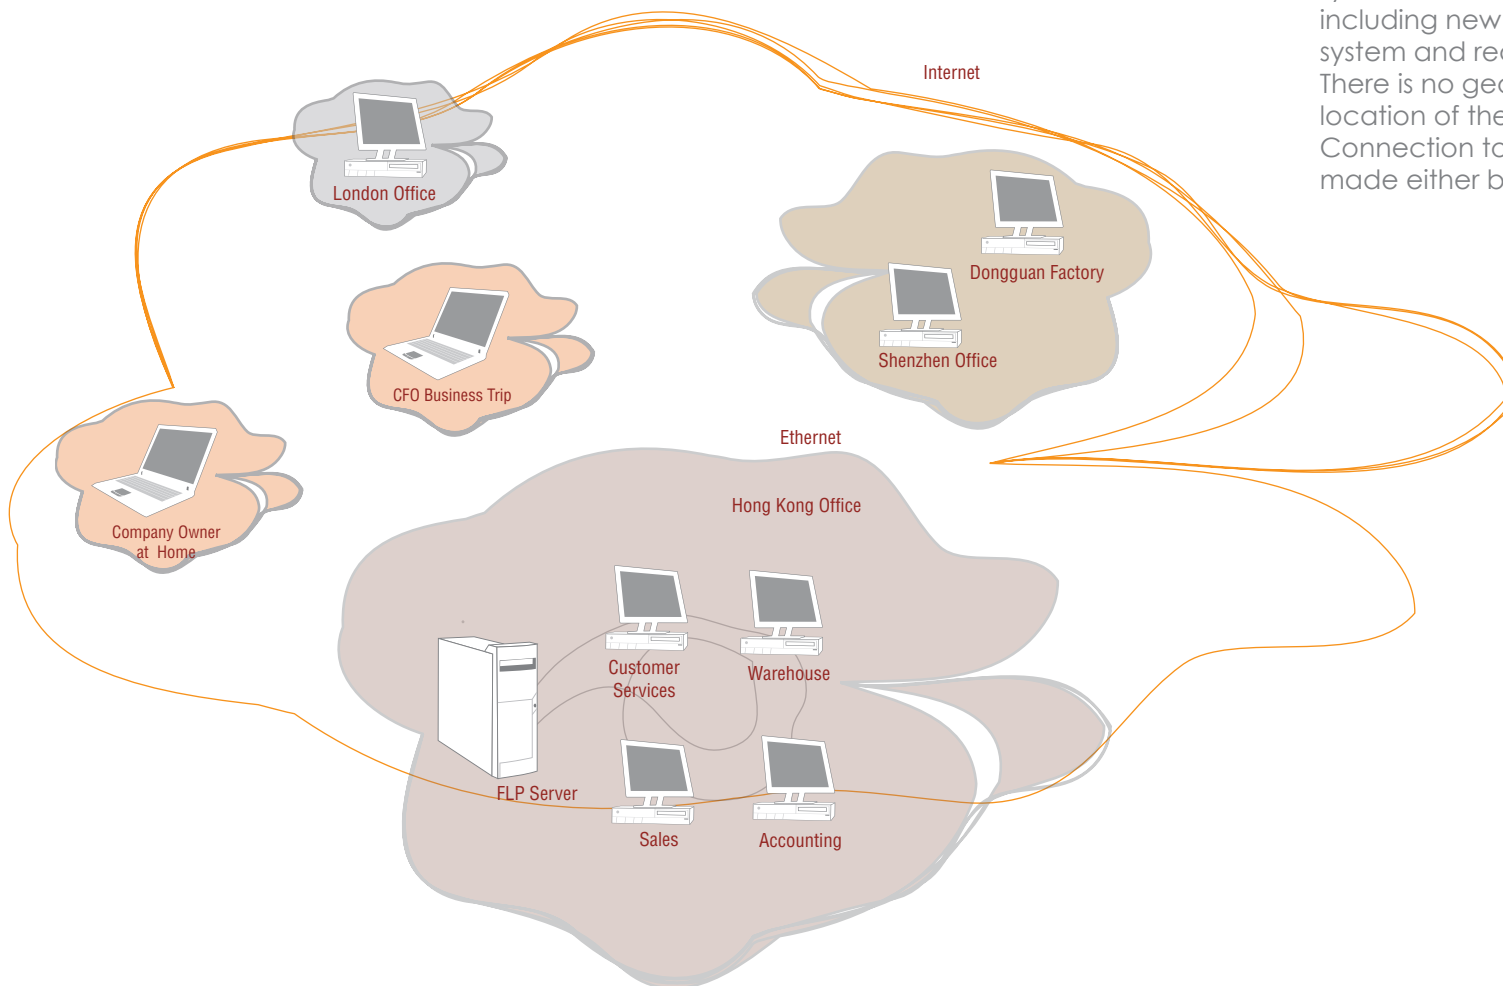

GLOBAL ACCESS AND IMMEDIATE PRODUCTIVITY

Global project management system can be established easily with FLP® Projectr Manager which supports multiple languages and ease connection with overseas offices; no new system and time-consuming set up processes are needed, only personal computers, local area network, Internet broadband connection and simple set up procedures will be sufficient.
